Seattle, WA | (206) 914-4148 | aaronbruce5116@gmail.com | www.linkedin.com/in/aaron-bruce-seattle

Goal: Full-Stack Web Development & Programming Role

Entry-level programmer seeking a challenging, growth-oriented position involving the development of mobile-first website apps in a JavaScript environment. Recipient of recent training in coding processes and best practices, in addition to having a diverse background in public-facing summer jobs that have taught the values of exceptional communication, customer service, and collaboration. Highly coachable, willing to learn, and ready to work hard and contribute within the ranks of the right organization!

SOFTWARE/TECHNOLOGY FOCUS

Fullstack Javascript Development, React, Redux, Mongoose, MongoDB, Socket.io, Node JS, HTML, CSS, SCSS, Windows, Ubuntu

KEY SKILLS & STRENGTHS

Software & Website Development	Requirements Gathering	Software Architecture
UX/UI & Front-End Programming	Database / Back-End Development	Software Testing & Debugging
E-Commerce Sites & Storefronts	Electronic Payment Portals	Web Security & Data Privacy
New Features & Functionality	Project Planning & Time Management	Tech Support & Documentation
Mobile Application Development	Communication & Collaboration	Creative Problem-Solving

EMPLOYMENT HISTORY

Full-Time Student | CODE FELLOWS   *Seattle, WA: April 2017 – June 2018*
- Recent graduate of this intensive technology training academy, completing a series of classwork and hands-on projects centered around Advanced Software Development using JavaScript
- Gained strong knowledge regarding the fundamentals of quality software development, as well as usage of specific languages/tools such as React, Redux, Node JS, MongoDB, Socket.io, HTML, CSS, and SCSS

Assistant Trainer | SEATTLE SCUBA   *Seattle, WA: Nov 2015 – Jan 2017*
- Assist in teaching scuba diving lessons to classes of students, both in the pool and in open water
- Certified Rescue Diver; trained in safety, CPR, and how to deal with stressful "panicked diver" situations
- Grade student scuba exams and currently working on attaining full Dive Master Certification

Summer Intern | CHAPARRAL INDUSTRIES   *Odessa, TX: Summer 2013*
- Held internship providing customer service and scheduling support for this construction company
- Assisted with budget monitoring/analysis, on-site inspections, and other special projects, as assigned
- Commended repeatedly by supervisor for accountability, coachability, and collaboration skills

*Additional short-term and summer jobs held as a **Delivery Driver** (Amante Pizza) and as a **Camp Counselor** for Camp Wahoo in Cle Elum, WA. Further details about these roles available upon request.*

EDUCATION & CERTIFICATIONS

AA Degree Program | NORTH SEATTLE COLLEGE (graduate December 2018)
Certificate in Advanced Software Development with JavaScript | CODE FELLOWS ACADEMY
Environmental Science & Sociology Studies | CARROLL COLLEGE

ADDITIONAL INFORMATION

Athletics: long-time participant in Select Soccer leagues in Seattle, Washington and Auckland, New Zealand

Community Service: Volunteer at Ronald McDonald House (cooking, cleaning, serving meals to cancer treatment families) and on a Youth Mission that built/restored houses for Hurricane Katrina victims

Special Project: Interested in solar power and clean energy; currently building a website to help manage a family summer home in Martha's Vineyard using alternative energy methods
